- Map with extensive info about the island | ask the crew
- English speaking captain & crew
- Leaflet with safety instructions in En/Fr/Es/Ch/Kr
- WC & facilities for washing seawater off | ask the crew

## IMPORTANT NOTES

- Passengers, choosing a tailor-made tour, have to respect captain's instructions.
- All yachts and boats in Greece cannot moor directly on the beach.
- Sunset Oia has selected the best points for swimming and snorkeling, the closest possible from the beach.
- Hot Springs: It is good to know that catamarans / yachts stop 50m away from the warm sulfuric water of the Hot Springs bay. The temperature in the Hot Springs area is up to 4°C warmer than the open water. Guests swim securely close to the Volcano. Dark color swimwear is recommended.
- The duration of the tour is not the same throughout the season, especially the sunset cruise. During June, the tour lasts about 6 hours (daylight is longer), while in October is about 4 hours and 30 minutes.
- Kindly note that the itinerary and stops of a cruise may be subject to alterations, without prior notice, in case of inclement weather.
